

Remarks

This paper is a Preliminary Amendment for the above-referenced patent application. In the parent application nineteen claims were filed and through a Restriction Requirement Claims 6 and 15-18 were prosecuted in the parent application.

This Divisional Application is thus directed to Claims 1-5, 7-14 and 19 which remain for further prosecution in this Divisional Application. Responsively, Claims 6 and 15-18 have now been canceled by this Preliminary Amendment.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
FOR: ROSENBERG, KLEIN & LEE
